

# There Is A Way

## Intro

Funny how the problems arise  
Everyday at your side, I know  
There's sometimes too much to take  
When the hope you have is gone  
And the love to hold on too  
Keep your head up to the sky, though I know it may seem

It may seem to be that you can't see your tomorrow  
But you just keep holding on (keep holding on), and you'll be strong  
Cause I know there is a way if we try hold on

Hold on to your dreams it's not bad as it seems (it's not bad as it seems)  
You better hold on to your love  
Keep looking up to heaven above (keep your head up)  
Hold on till tomorrow (there is a way)  
There is a way

Funny how we waste our time away  
And you never planned to stay, there I go  
Looks like another mistake why do I do wrong  
But if the life I live today, means another chance to find a way  
We got to keep our heads up to the sky though I know it may seem

It may seem to be that you can't see your tomorrow  
But you just keep holding on (keep holding on), and you'll be strong  
Cause I know there is a way if we try hold on

Hold on to your dreams it's not bad as it seems (it's not bad as it seems)  
You better hold on to your love  
Keep looking up to heaven above (keep your head up)  
Hold on till tomorrow (there is a way)  
There is a way  
Keep holding on...
