No Compromises

Intro5pect

No fuckin' compromise
No more racist, sexist lies
Today we fight, tomorrow unite

I'm saving all my harshest words
I'm gonna focus my attack
Gonna spit like nails right through my teeth
and take this world back

These words are like a fuckin' weapon
And the point is down your throat
We're past the point of compromise
If we want to stay afloat (so come on!)

Fight, unite, we're all citizens of the world
And when we have the numbers we can hold it to our terms
Fight, unite, we're all citizens of the world
And when we have the numbers we can hold it to our terms

If we're gonna fight (we have to win)
Momentum lost (supposrt gives in)
So pick your battles and choose your fights
The left is dead and the center's gone right
And labored breath the world tips just a little more
And we're right back where we were before
