

We are one  
Will you ever understand?  
You'll learn the hard way  
Will you ever understand?  
It's not about you  
I always told you not to stray away  
All alone this world will make you pay  
Together, we are one  
Together we are forever  
Forever  
Two forces, turned to one  
Coalition to reach the sun  
The path is straight  
My footsteps pave the way  
This light will lead you home  
You won't be on your own  
Together we are one  
Together we are forever  
There is no leader  
There is no king  
They'll pick you apart  
If you are struggling  
These towers are too high  
Too high to overcome  
This is no worthless cause  
This is a synergy  
From a power that you could not believe  
My mind is pacing  
My heart  
Is beating faster  
Than it ever has  
We are forever  
And ever  
And ever  
And ever
