Invent, Animate

I'll take you there if you want me to
Nothing will ever get in our way again
I'm digging so deep

I never said the stars won't align
I only said if you reach, that they'll be there in time
I could never go back to where I was
And be in that barren world again

Watch the lights fade
Watch the sunrise
Forget it all, forget it now

Remember all the times we spent
Watching the world rotate
Seven days, felt like nothing

I've lost connection

I want it back
We're living to live

These lights are blinding, but I'll never stop
I'm looking ahead to better days (better days)
When you're here and it's all withered away
The answer comes in time, but I don't have time to give
I saw the smoke clear
I watched the world die before my eyes

All I ever really wanted was to be away from here
All I ever really wanted was to disconnect
And forget the world with you
I can't forget
