

Purity Weeps

Invent, Animate

I'll never take you for granted
I'll never leave you abandoned
Another prison of loss and doubts it's true
But nothing keeps me alive as much as you

Sentenced to be frail

Take me back to what we deemed as storms
A withered dream inside a past deformed
Behind the veil, the things I failed to say
I'm coming home so just stay put for me

I'm hiding under lights
And my eyes feel worn at night
You might see me passing through
All these feelings lost in you

Surrounded by faces

Tell me is it you under the sheet of twilight?
A moment you swore you knew
That was lost through time

From dust we form
Where the shades lie, interchangeable
Weakened daylight
We fell into the moment

I'm hiding under lights
And my eyes feel worn at night
You might see me passing through
All these feelings lost in you

Surrounded by faces
That make it seem like they're gracious
The callous hidden in plain sight
Silent backbite testing faith
Vacantly staring, we're alone in this room

Hide in loop, mesmerizing ways
(So alone in this room)
Silent you, sentenced to be frail

I'm hiding under lights
And my eyes feel worn at night
You might see me passing through
All these feelings lost in you

I'll never take it for granted
I'll never leave you abandoned
Another prison of loss and doubts it's true
But nothing keeps me alive as much as you
