

Compose yourself  
This is not another drill  
The ship is finally sinking  
This time we're going under

If you could see what I see  
You too would have been deceived  
If you ever believed in me  
Like I believed in you  
Stability would guide us through  
You are the way

Why could my eyes not see?  
What could my ears not hear?  
Why could my mouth not say the words I wanted to say to you?  
Is this the final straw?  
Is this a call to arms?  
Abandon ship was the only option

Let's go away to a different place  
I'll give you everything  
Let's start again at a different pace  
I know it's not too late  
Let's drift away to a different place  
I'll give you everything

We're going under  
We're going under

Now I'm standing on my feet  
Waves crashing down on me  
But I am moving forward
