

## Hate Me (Forsake Me)

InVisions

So full of hate there's nothing left just a putrid shell  
Just like the devil sent from heaven you created this hell  
Your innocence a masquerade you use to bury yourself  
A hollow crown will weigh you down and leave you begging for help  
Like a freight train tearing through my brain I'm spending second after second slowly going insane  
Everything you said to me now counts for nothing  
Don't come crawling when you see I stand for something  
You fucking coward you're not worth my time So keep on lying to yourself I know you're dying inside  
I know you're dying inside  
You cannot survive without this heart to feel alive  
Take your poison from me this ain't who I want to be  
So hate me, forsake me cause I care no more You are the plague, we're the cure  
So God damn condescending  
You were only ever good for one thing  
This revelation broke on me just like a tidal wave  
Your damaged soul so cold the devil wouldn't trade that day  
Your arrogance it makes me sick  
Go ahead and talk your shit about me  
Cause I don't give a fuck as long as I am free Just look who's laughing now the world can see  
You're a fucking waste of skin and you can never beat me  
I know you're dying inside  
You cannot survive without this heart to feel alive  
  
Take your poison from me this ain't who I want to be  
So hate me, forsake me cause I care no more You are the plague, we're the cure  
We are the cure  
You cannot survive  
Heart to feel alive  
So hate me, forsake me  
So who's laughing now  
You're just a face in the crowd I knew I couldn't trust you  
Bitch You've left me full of hate there's nothing left just a putrid shell  
Just like the devil sent from heaven you created this hell  
Your innocence a masquerade you use to bury yourself  
A hollow crown will weigh you down and leave you begging for help
