

Malice, I feel it drag me under  
And you'll watch as the worlds torn asunder  
Callus, you don't even know it's wrong  
You ignorant, self-righteous cunt

I'm never backing down  
I'll burn your empire to the ground  
I never back down

Shrouded, I am no longer breathing just to know that I'm alive  
When all is failing, where will you be, where will you stand

I'm never backing down  
I'll burn your empire to the ground  
I never back down

How can you follow  
Why do you never ask why  
You live your in visions that you can't define  
Blinded by the addiction to the lies  
You're treading water, now you're out of time  
Out of time

Coward, this shit is never ending  
And I won't hold my tongue if I'm offending you  
Mother fucker it's a message I'm sending  
So listen up, here comes the truth  
Everything you thought you knew  
Is always going to fuck with you  
So take your fucking attitude and preach it somewhere else  
Go tell someone who cares  
Or shut your mouth you  
Or shut your mouth you cunt

How can you follow  
Why do you never as why  
You live your in visions that you can't define  
Blinded by the addiction to the lies  
You're treading water, now you're out of time

You're just treading water  
You're treading water

Bitch, always talkin'  
Here's a dick so suck it, fuck it  
Love it, hate it you don't deserve it  
Just suck it up princess  
Yeah, always talkin'  
Here's a dick so suck it, fuck it  
Love it, hate it you don't deserve it  
Just suck it up princess

How can you follow  
Why do you never as why  
You live your in visions that you can't define  
Blinded by the addiction to the lies

How can you follow
