Devil Inside

Here comes the woman With the look in her eye Raised on leather With flesh on her mind Words as weapons sharper than knives Makes you wonder how the other half die Other half die

Here come the man With the look in his eye Fed on nothing But full of pride Look at them go Look at them kick Makes you wonder how the other half live

The devil inside The devil inside Every single one of us the devil inside

The devil inside The devil inside Every single one of us the devil inside

Here come the world With the look in its eye Future uncertain but certainly slight Look at the faces Listen to the bells It's hard to believe we need a place called hell
