

## Melting In The Sun

INXS

I'm melting in the sun  
And this is what they call the life  
I suppose to much sun  
Makes a desert Arab say

And I really love this country  
There's a lot I wanna see

Great expectations  
Of all we seem to be

And the winner  
And the winner, the winner

Do you wanna make a story up  
There's enough it always seems  
If it happened in this morning  
Tonight we'll see it on T.V

Great expectations  
Of all we seem to be

Great expectations (take a look around you)  
Of all we seem to be

And the winner  
And the winner, the winner

She was twelve and knew the world  
Her boyfriend knew a dance to this  
Everybody's got advice  
Take a snake, take a ladder

And this is what they call the life  
I'm melting in the sun

Great expectations  
Of all we seem to be

Great expectations (take a look around you)  
Of all we seem to be

And the winner  
And the winner, the winner
