Dmi Ami
All veils and misty

Streets of blue
Dmi Ami
Almond looks

That chill divine
Dmi Ami
Some silken moment

C G
Mystify me

I need perfection
Some twisted selection
That tangles me
To keep me alive

In all that exists
None have your beauty
I see your face
I will survive

Emi G
Eternally wild with the power
Emi G
To make every moment come alive
Emi G
All those stars that shine upon you
Emi G
Will kiss you every night

All veils and misty
Streets of blue
Almond looks
That chill divine

Some silken moment
Goes on forever
And we're leaving
Yeah we're leaving broken hearts behind
