One X One

And when your heart stops beating And the stars stop shining When all your tears go dry Honey one by one I will still be there I will sing your song And come to you Oh oh all night long

And is this all that it seems Cause this is all that we need When all the thorns are cut away Baby one by one Will you still be there Will you sing my song And come with me Oh oh all night long

And all your kisses linger Like they always do Let all that spirit in you Take it to the end I will still be there I will sing your song And come to you all night long
