If this was easy Where would I be I haven't said I have all the answers How could anyone

Can't stop looking at the lights
All around my head
I'm missing the darker side
Of the man

He's on his knees Looking for the door But everybody's Giving him applause

Crashed the car Into a wall But everybody's Calling for more

It's called the end of rock and roll

These days are numbered Counted out in loss Faith and spirit Walking hand in hand

To meet a wall
Made of sound
But where does that sound
Find a place today

Maybe we came to the wrong show I've seen this before

It's called the end of rock and roll

Oh shadow take me Leave nothing still 'cause I've not seen the miracle How could anyone

We ask too much of the song To come and save our souls When all it's trying to do now Is save its own

Maybe we came to the wrong show I've seen this before

Maybe we came to the wrong show
I've seen this before
It's called the end of rock and roll

It's called the end of rock and roll
