I think I liked you a lot
Why can't I move my feet?

How about you?
Would you be alright without me?

I love you love you love you
Love you love you everyday
Every day, I only loved you
I love you love you love you
Love you, I'm so afraid of this situation right now

Hold on, what are you doing?
At this rate, you might never seen me again
Look at my eyes, look into my eyes, it's not time yet
You don't know me very well boy
If this isn't over, run to me
If this isn't over, run to me
I trust I trust trust you you

I think I loved you a lot
Why can't I move my lips?
How about you?
Would it be alright if you never saw me again?

I love you love you love you
Love you love you everyday
Every day, I only loved you
I love you love you love you
Love you, I'm so afraid of this situation right now

Hold on, what are you doing?
At this rate, you might never seen me again
Look at my eyes, look into my eyes, it's not time yet
You don't know me very well boy
If this isn't over, run to me
If this isn't over, run to me
I trust I trust trust you you

We're standing at a crossroads
Don't let go of these hands that you held for the last time
You may forget me but I can't forget you, I'm waiting for you
I'm yours and that won't change, never forget

Hold on, what are you doing?
At this rate, you might never seen me again
Look at my eyes, look into my eyes, it's not time yet
You don't know me very well boy
If this isn't over, run to me
If this isn't over, run to me
I trust I trust trust you you

Lastly, I wanna tell you
It was short but I felt you enough
Don't forget that we loved more than anyone else
