

# BLAZING

ionnalee

Wheels be spinning faster from home  
Come brush closer to where you wanna go  
Lick my wounds, sing it to overcome  
A handful miles only to be gone

We be blazing  
(Blazing)

Headlights cut the black with a glow  
Heavy breathing streams down the window  
Stays on my skin in the heat of the dark  
All I need is to feel your spark

We be blazing  
(Blazing)

I came what I came what I came here for  
And I lean my head on your insides and we  
We be blazing  
Your reflection speeding quickly by  
The night is, now your eyes will spark and we  
We be blazing

I came what I came what I came here for  
And I lean my head on your insides and we  
Your reflection speeding quickly by  
The night is, now your eyes will spark and we

I came what I came what I came here for  
And I lean my head on your insides and we  
We be blazing  
Your reflection speeding quickly by  
The night is, now your eyes will spark and we  
We be blazing

I came what I came what I came here for  
And I lean my head on your insides and we  
We be blazing  
Your reflection speeding quickly by  
The night is, now your eyes will spark and we  
We be  
Blazing
