

CRYSTAL

ionnalee

Ooh, ah

Sad noise, so are you gonna follow me on?
You're no good use, promising me gold and grace
Living ain't easy
This worn-out body covered in salt
Found broken and lost at sea
You can have the rest of me

Oh, oh
Oh, oh

Cold talk, I wanted shivers to the bone
I wanted love, I needed one so grand it hurts
Make it stop, carry myself up to the top
(Where nothing can grow)
My salty rivers flow

Breathe the last of this air to come to life
Soak these hills like I'm the only one left alive
My salty drops roll frozen to the ground
Now I'm crystal in the mouth of your river

Oh, oh (Ooh)
Oh, oh

Some sight (Ah)
You'll never find a place like home
(Find a place like home)
That kind of hurt comes only in an empty space
Here I am, water raising up to the top
More than I can drink
I shut my eyes and sink

Breathe the last of this air to come to life
Soak these hills like I'm the only one left alive
(I'm the only one left alive, I'm the only one left alive)
My salty drops roll frozen to the ground
(Ooh, ground)
Now I'm crystal in the mouth of your river

Oh, ah (Ah, ooh)
Oh, ah (Ah, ooh)
Ooh, ah (Ah, ooh)
(Crystal)
Ooh, ah (Ah, ooh)

Breathe the last of this air to come to life
Soak these hills like I'm the only one left alive (Only one left alive)
My salty drops roll frozen to the ground
Now I'm crystal in the mouth of your river

I breathe the last of this air to come to life (Ooh)
Soak these hills like I'm the only one left alive
(I'm the only one left alive, I'm the only one left alive)
My salty drops roll frozen to the ground
Now I'm crystal in the mouth of your river

Oh, ah (Ah, ooh)
Oh, ah (Ah, ooh)
Oh, ah (Ah, ooh)
Oh, ah (Ah)
