

down by the lake

ionnalee

Down by the lake
Down by the cold lake
We shook hands
We were fine
With your demands
Down by the lake
The cool icy lake
In the sand
In the silence
You said farewell

Down by the lake
Down by the cold lake
Your shot me down
And left me there
I bled through sand til red coloured the water
Murder this is treason they're crying out

The lake
Now blood red quiet lake
I took a dive
With my heart
In my hand
And I sank
To the bottom
Hit the sand
The reeves they sang
I heard them sing

Down by the lake
Down by the cold lake
Your shot me down
And left me there
I bled through sand til red coloured the water
Murder this is treason they're crying out

I heard them sing...
Sing...
