

## not your cherry

ionnalee

Never was as little  
Lost in a riddle  
Standing in the middle  
Of someone else's high  
Put on top to make you shine in  
A scent of sweat and pine and  
Preaching lines that  
Really got inside my head  
Should have known I am a sailor  
Made to roam the seas and  
That's where I belong and  
Not floating on a wire  
The weakness in a genius mind is  
Stupidity surrounds it  
Some silver lining

Uh uh, no way  
I'm not your cherry  
Not lighting your dark with my luminary  
It's not a song I'd sing  
It's not my place to be  
Forever spinning in a hurricane

The laws of attraction  
For similar imperfections  
Become swift transactions  
When the world is growing wild  
Will only itch and tether  
Reaching away forever  
Away from each other

Uh uh, no way  
I'm not your cherry  
Not lighting your dark with my luminary  
It's not a song I'd sing  
It's not my place to be  
Forever spinning in a hurricane

I'm not your cherry  
I'm not using your worn vocabulary  
It's not my song, you sing it  
I'll be over here forever dancing in the rain

(Forever spinning in a hurricane)

Uh uh  
Uh uh
