

run wild

ionnalee

Everybody's looking for
What's true and doesn't hurt
But truth is hard to swallow
And if I am nobody's daughter

Why do they have me into hold
I was full of love and laughter
Only when I lost control
Worth my weight in water

You want to see me shine and fly high so my love
Rains down
And when it rains down your rivers never run
Run dry
They run wild

I know you did
Yes I do
No you did
No you didn't just leave me here (I know it)
Just leave me here (I know it)

I know you did
Yes I do
No you did
No you didn't just leave me here (I know it)
I know where you went
I needed the silence

You want to see me shine and fly high so my love
Rains down
And when it rains down your rivers never run
Run dry
They run wild

You need me flying high (run wild)
To have my love rain down (run wild)
And when it's raining down (run wild)
Your rivers never dry

You want to see me shine and fly high so my love
Rains down
And when it rains down your rivers never run
Run dry
They run wild
