

## SILENCE MY DRUM

ionnalee

Woke from silent sleep, faint and half  
I ran at light speed to break through the wall  
My sound is ceasing, I chase the calls  
Into mute frequency to face the force

Silence my drum and hush my calls  
My sound will travel until it stops  
Ooh, I fire my guns, pull through it all  
Will shy from no man, will kill the calm

Cutting knives as my back turns your way  
I turn around and you smile, it's okay  
Lay me down in your arms, forget me not

Silence my drum and hush my calls  
My sound will travel until it stops  
Ooh, I fire my guns, pull through it all  
Will shy from no man, will kill the calm

Ooh, yeah, ooh  
Mmm, I turn around and you smile, it's okay  
Ooh (Silence my drum)  
Ooh, ah (Silence)

Silence my drum and hush my calls  
My sound will travel until it stops  
Ooh, fire my guns, pull through it all  
Will shy from no man
