

Thunder Lightning

ionnalee

It hits you without warning
Always paralyzing your nights
Habits that are forming
Growing like imaginary clouds
Say I did no wrong by you I'm full of lies
Got malice pumping in my veins
Are you beat yet?
Pressure's keeps rising high
Nothing kills the silence like the rain

You know I am thunder and lightning
I strike without a warning
Maybe you're ignoring the signs
Hidden in the warm air
You know I am thunder and lightning (thunder)
I strike without a warning
Maybe you're ignoring the signs

Hear me when I'm calling
Hear me when I'm calling

It hurts but least we feel it
You know times are numbing and I
Got to break the stillness for a while
Need to see destruction to feel alive
And when I say sorry I'm full of lies
Got a violent streak I'm not ashamed
Are you beat yet?
Pressure keeps rising high
Nothing thrills me like a savage game

You know I am thunder and lightning
I strike without a warning
Maybe you're ignoring the signs
Hidden in the warm air (when I'm calling)
You know I am thunder and lightning (thunder)
I strike without a warning (ooh)
Maybe you're ignoring the signs

Hear me when I'm calling
Hear me when I'm calling

Thunder lightning
Thunder
Thunder lightning
Ooh

You know I am thunder and lightning
I strike without a warning
Maybe you're ignoring the signs (ooh)
Hidden in the warm air (thunder lightning)
You know I am thunder and lightning
I strike without a warning (without warning)
Maybe you're ignoring the signs

Hear me when I'm calling
Hear me when I'm calling

Thunder lightning
