

violent playground

ionnalee

To the left
To the left

We are the boys
We are the big boys
We're so strong
We're so pure
We know we are
We know we are

Now we're going out to play
There's no fun at home
No one can stop us
We play for real
We play for power

Won't you come and join us
In our playground
It's a violent playground
Such a violent playground

To the left
To the left

Now we can't grow up
We must never get old
It's not aloud
Now we all play
Everywhere
Everywhere
We've got new toys
The old ones are worn out
We can change the world
We will play with the world, with the world

Won't you come and join us
In our playground
It's a violent playground
Such a violent playground

Won't you come and join us
In our playground
It's a violent playground
Such a violent playground
