

Broken Promises

Iration

Said you wanna try something new, tired of the same thing
Said you wanna find someone who gets your heart racing
We're headed for the sunset of our love and we can't turn back
If only I had let it go before I got caught up in the trap

I thought we were on the right track

Broken promises, broken promises
Get between me and you, oh no no no
And when your heart breaks, when your heart breaks
Know that I feel it too

She said she'd never leave you sad and that she'd never leave you blue
But the things that she's been doin got ya thinkin that ur through
First she says she wants to leave but then come runnin back to you
Baby cryin all the time and make ya feelin like a fool
Try to lock up your heart and stealing your soul
Wanna get in your mind and she not lettin go
How it used to be fine now is takin its toll
Take you out like the trash, leave you all in sorrow
She said you are one of a kind but you were three in a row
Everybody's droppin dimes they tryin all to let you know
If ur thinkin ur on track but gotta long way to go
If she rippin up ur heart she gon be reepin what she sow

I just wanna get my life back

Broken promises, broken promises
Get between me and you, oh no no no
And when your heart breaks, when your heart breaks
Know that I feel it too

Too many promises ya can't keep
Too many lies that you can't take back
It's too late for apologies
I thought we were on the right track
I thought we were on the right track

Broken promises, broken promises
Get between me and you, oh no no no
And when your heart breaks, when your heart breaks
Know that I feel it too
