

Can't Look Back

Iration

I heard you're running round with another crowd lately
They say you might have even lost touch, crazy
And all the things that keep you up at night
It's not too late to get the wrong things right
Just remember that you can't look back forever gone
Haven't felt like you could be yourself for so long
And all the times you whispered to yourself to "hold on"
Yea it might be time for you take that ride
Or you'll be watching as it rolls on by
And no you can't look back, you can't look back

I know
Change is
Not always
Painless
Human
Meaning
Trust all the signs that you're seeing

You just can't look back
Too many things that can haunt you
Bad dreams don't last
'Cause I'm here if you want to
Take some advice from me
Deep down it's the only way to be free
You just can't look back
You know you can't look back

I know the world can seem dark and so cold
And we're all living in a tale that's been told
Yea just know that there's another path to roll
If you give yourself the light then you will grow
And you don't have to look back
Don't look back

I know
Change is
Not always
Painless
Human
Meaning
Trust all the signs that you're seeing

You just can't look back
Too many things that can haunt you
Bad dreams don't last
'Cause I'm here if you want to
Take some advice from me
Deep down it's the only way to be free
You just can't look back
You know you can't look back

You just can't look back (you can't look back)
Too many things that can haunt you
Bad dreams don't last
'Cause I'm here if you want to
Take some advice from me

Deep down it's the only way to be free
You just can't look back
You know you can't look back

Can't look back
You know you can't look back
Can't look back
You know you can't look back
You can't look back
