Looking down the barrel of a soldier
Life comes at you fast when you're broke down cold all alone and piling up o

Try not to listen to the voice in the back of your head telling you you're i

[J Boog:]
Tuff like gorilla heavy n sharp like iron
Physically mentally spiritually fit like a lion
Never tell yourself you can't do nothing
Even di small axe can make the big tree buckle
Fly fast like a speeding bullet
Vybez stay red hot and cannot cool it
Barriers no match for this big boy gunning with the rock
And just watch when mi go threw it
Uh huh
Hard times not strange to us
Elevated with the best now they Envy us
Stepping on out of the concrete and dust
J Boog Iration dangerous!

[Tyrone's Jacket:]
The fire burning, the tides are turning
And times of changing, in many nations
Who really wants a war?
Gotta get in where you fit in when you listen to the rhythm if you with it t
hen you fight back
One time worldwide let it light up
Cultivatin' the energy in the room, ceremony for the prophets
Let it be known that it's on; that it's poppin'
We unify and evolve in the process
Sun is rising
