

Daylight Saving

Iration

Clock ticks away
And it's weighing on my mind
Wishing I could stay
Wishing I could press rewind

Days grow longer when I spend them with you
When we're together, wanna make it last forever

Daylight saving
Time alone with you is all I'm chasing
Every lost moment is heartbreaking oh
As long as I'm with you

Every word you say
Echoes all night long
Lying wide awake
Hoping morning never comes

Days grow longer when I spend them with you
When we're together, wanna make it last forever

Daylight saving
Time alone with you is all I'm chasing
Every lost moment is heartbreaking
As long as I'm with you

Yeah
We can take it slow if you want to
We can have a good time if you want to
We can get, we can get down if you want to
Buy another round if you want to
Do it in the wickedest style if you want to
We'll do everything that you want to
All that we'll talk about
