

## Energy

Iration

When times get tough  
In a world gone cold  
Feels like we're all alone  
Life is just a roller coaster  
Can't feel my hands  
Got no plans  
And I just can't wait until it's over

When I've had enough  
When I've had enough

That's when I feel your sun  
Shining down on me  
And it's early days yet  
As long I am free  
I feel your sun  
That's where I wanna be  
Soaking up your light  
And your energy  
Right next to me  
Means the world to me  
Your energy

Life can take you low make you wanna just run & hide  
Darkness can numb the hurt and the pain that you feel inside  
Lights gone out  
Fueled by doubt  
And your holding on but barely alive
