

Life can get complicated  
9 to 5's make you crazy  
We need some time away from it  
Let me tell you what's on my mind  
I got some bottles that I've been saving  
Got Ginuwine on the playlist  
Come on let's not think too hard about it  
And let's just stay in tonight  
You and I

We don't need to get fancy  
Living room romancing  
In the candle light  
Feel our cares just slipping away  
We don't need to get fancy  
Drunk in the kitchen just dancin'  
I'm a DJ  
You're a hot girl  
In your pjs

We can just stay at home  
Don't need to get fancy

Stressing bout what's on my mind  
Tired of working overtime  
Shopping lists  
Bills to pay  
When did life get in the way?  
Need some time to just let go  
Even get some cardio  
You can put your heels away  
Let's just have a house party

We don't need to get fancy  
Living room romancing  
In the candle light  
Feel our cares just slipping away  
We don't need to get fancy  
Drunk in the kitchen just dancin'  
I'm a DJ  
You're a hot girl  
In your pjs  
We can just stay at home  
Don't need to get fancy

Don't need to get fancy

We can just stay at home  
Don't need to get fancy

We can just stay at home  
Don't need to get fancy
