

Guava Lane

Iration

Island grooves
We were in the right mood and driving
Windows down
Rolling through the hometown
Just vibing
Sun is going down and we're rolling one up
I gotta gleam in my eye and got nothing but love
Island grooves
We had nothing to lose, oh no

Oh, we were young and we were bold
Never doing what you're told
We forget about the bad times
And reminisce about the good times

Let's take it back take it back down guava lane
Sitting in the bed of a truck in the pouring rain
The boys have got the bottles and the girls have got the green
We were feeling good and living life just like a dream
Let's take it back take it back down guava lane
Whoa whoa whoa

In the cool night air
And I'm listening to Gregory Isaacs
Said I'm chilling right there with a spliff in my hand just styling
We were at the party everybody having fun
Blue lights flashing and we started to run
That's where we go when we go back to guava lane

Oh, we were young and we were bold
Never doing what you're told
We forget about the bad times
And reminisce about the good times

Let's take it back take it back down guava lane
Sitting in the bed of a truck in the pouring rain
The boys have got the bottles and the girls have got the green
We were feeling good and living life just like a dream
Let's take it back take it back down guava lane
Whoa whoa whoa

So many times you
So wrapped up in what you're tied to
Get caught up in what you're trying to do
Time keeps slipping away

Feeling out of touch
Go back in your mind it don't take much
Don't deny what you feel
You'll find what is real
Inside

Let's take it back take it back down guava lane
Sitting in the bed of a truck in the pouring rain
The boys have got the bottles and the girls have got the green
Feeling good, living life just like a dream
Let's take it back take it back let's take it back

Back down guava lane
