

Home Tonight

Iration

Not used to waking up alone
Darkness all around me
Not used to picking up the phone
When I wanna hear your voice
Not used to being by myself
With people all around me, but I
Got used to being in my zone
Learned how to block out the noise

Now that day we got circled on the calendar
Has finally come around
And I just can't wait 'til I get back to you
I'll see you when I touch down

Can't wait 'til I get home tonight
It's been so long since I could hold you tight
It's just you and I making up for lost time
Long overdue overnight
And now I'm ready to go over time
It's just you and I making up for lost time

It's just you and I
It's just you and I
It's just you and I making up for lost time

In my mind, girl
It's you and I, girl
In a whole 'nother world
On our own little planet
Whatever you want you can have it
You just gotta reach out and grab it
Yeah that's how it's gonna be
When it's just you and me
Close my eyes that's all I see

Can't wait 'til I get home tonight
It's been so long since I could hold you tight
It's just you and I making up for lost time
Long overdue overnight
And now I'm ready to go over time
It's just you and I making up for lost time

It's just you and I
It's just you and I
It's just you and I making up for lost time

It's just you and I
It's just you and I
It's just you and I making up for lost time
It's just you and I
It's just you and I
It's just you and I making up for lost time
