

I'm With You

Iration

Although it's hard for me to say
what's on my mind
I'm tired of
messing around and wasting
precious time
We both know that
this feels right
I will make it
clear tonight

I'm with
you
I've known it for a
while
I'm with you
Can't live
without your smile

If I could
give you the world
You know
that's what I'd do
Tell me your
wildest dreams I'll make them all
come true
We both know that this
feels right
i will make it clear
tonight

Chorus

bridge:
We
can't tell what the future will
be
You need to know you can count
on me
