

Learn from Me

Iration

I can feel it now
Sitting in the sun
Thinking bout the past
Change is gonna come
Say goodbye to me
Forever will be us
I'll always be there
I won't break your trust

And I know that the change will do me good
Please just know I gave you all I could

I will wipe away your tears
I will make you smile
I will braid your hair
Sorry bout the style
In the dark of night
I won't leave your side
You can feel secure
I won't let you hide

And I know that the change will do me good
I'll do all the things I know I should

And you'll learn from me
You'll learn from me
You'll learn from me
You'll learn from me

I followed my dreams
You can follow yours
I won't let the world
Make me insecure
I will always try
To show you who you are
I'll always be me
Sometimes less is more

And I know that the world is mostly good
And I know that change will do us good

Cuz you'll learn from me
You'll learn from me
You'll learn from me
And I will learn from you
