

New Day

Iration

The sun is creepin' through the curtains honey
And we ain't got nowhere to be
The crackle of the fire sounds so lovely
Tangled up in these sheets

Good morning
Got a cup of coffee and a kiss with your name on it
Moments like this are all I've ever wanted
Don't you dare think about getting out of bed my darling, my darling

It's a new day
Oh oh oh
Feeling better every way
And I say
Oh oh oh
It's feeling like a new day

Looking back with a smile thinking bout all the places we'd go
Road trips with the wind in your hair we put on a little soul

Get lost out there, destination unknown
But the look in your eyes always told me I was home

Good evening
When I say let's stay together you know I mean it
I don't want to wake up
Just keep dreaming
Moments like this are what keep us believing, believing

In a new day
Oh oh oh
Feeling better every way
(Feeling better every way)
And I say
Oh oh oh
It's feeling like a new day
It's feeling like a new day
I just need a new day

I'm feeling thankful for this new beginning
Waking up by your side
Why don't we just let the world keep spinning
I want to stay here in your eyes

It's a new day
Oh oh oh
Feeling better every way
And I say
Oh oh oh
It's feeling like a new day
It's feeling like a new day
I just need a new day
It's feeling like a new day
