

Obvious (No Doubt)

Iration

Head up in a cloud
No need for the ground
Whenever you're around
Nothing else can pull me back
You make a life worth living
And all the rest worth missing
Never coming down
Nothing else can pull me back

It's obvious
Two in a million
I'm the luckiest
More than a feeling

It's no doubt, no
Not a day without you
Everything's about you now
When you know it yeah you know it
No no doubt, no
Not a day without you
Everything's about you now
When you know it yeah you know it
No no doubt

Starts to hit me that I miss you
From the minute that you're gone
Want you with me, let's continue
'Cause it's been it all along

It's obvious
Two in a million
I'm the luckiest
More than a feeling
It's obvious

No doubt, no
Not a day without you
Everything's about you now
When you know it yeah you know it
No no doubt, no
Not a day without you
Everything's about you now
When you know it yeah you know it
No no doubt

Dazed for days, it's not a phase
Dazed for days, it's aHead up in a cloud
No need for the ground
Whenever you're around
Nothing else can pull me back
You make a life worth living
And all the rest worth missing
Never coming down
Nothing else can pull me back

It's obvious
Two in a million

I'm the luckiest

Dazed for days
It's not a phase
