

## Press Play

Iration

Round and round we go still searching for a better way  
Time and place are all but lost, forgotten on the way  
Running running running down, trying to escape the maze  
Life is simplified when you're just a castaway

Keep searching until you find it  
Even if it takes all night  
Can't stop it and rewind it  
You feel it and you know

And then you press play  
This meditation is the best way  
Just let the rhythm take your stress away  
We keep it going to the next day  
Just press play

Take me to the water, let me find the light  
Give me what I need to make all the wrongs right  
Floating floating floating up till I'm out of sight  
Life is just a breeze and I, I am just a kite

Keep searching until you find it  
Even if it takes all night  
Can't stop it and rewind it  
You feel it and you know

And then you press play  
This meditation is the best way  
Just let the rhythm take your stress away  
We keep it going to the next day  
Press play  
This meditation is the best way  
Just let the rhythm take your stress away  
We keep it going to the next day  
Just press play  
Just press play

Keep searching until you find it  
Even if it takes all night  
Can't stop it and rewind it  
You feel it and you know

And then you press play  
This meditation is the best way  
Just let the rhythm take your stress away  
We keep it going to the next day  
Press play  
This meditation is the best way  
Just let the rhythm take your stress away  
We keep it going to the next day  
Just press play
