

Right Here Right Now

Iration

Heard you in the morning from far away
Quarter past noon, still listening
Sun goes down and you're here to stay
Playing in my sound system

Got me feeling nice (ahh)
Good days turn to good nights (ahh)
I'm just out here livin' my life (ahh)
I'm only worried 'bout right here, right now

Talkin' 'bout right here
Only thinkin' 'bout right now
I only wanna be right here
Always livin' in the right now (why oh)
Talkin' 'bout right here (right here)
Only thinkin' 'bout right now (right now)
I only wanna be right here (right here)
Always livin' in the right here, right now

Hey, you know there's no more hesitation for me
Time to live in the present
You know I always have the chance to be
Grateful, and count my blessings
That's right, you know we only got one life
So bring on the good times, I'm thankful no doubt
Start with the here and now
Here right now

Talkin' 'bout right here
Only thinkin' 'bout right now
I only wanna be right here
Always livin' in the right now (why oh)
Talkin' 'bout right here (right here)
Only thinkin' 'bout right now (right now)
I only wanna be right here (right here)
Always livin' in the right here, right now

Right here in the moment, it is all I've got
We're riding on the feeling, but the feeling don't stop
Find your peace of mind when the mind runs clear
All I really know is what I'm doing right here
A new day is upon us, feel the rising sun
Have a little faith, put me in your trust
The words of the prophets, they are written on the wall
A new day is fallin'

Got me feeling nice (ahh)
Good days turn to good nights (ahh)
I'm just out here livin' my life (ahh)
I'm only worried 'bout right here, right now

Talkin' 'bout right here
Only thinkin' 'bout right now
I only wanna be right here
Always livin' in the right now (why oh)
Talkin' 'bout right here
Only thinkin' 'bout right now

I only wanna be right here
Always livin' in the right here, right now
Talkin' 'bout right now
(Right here right now)
I only wanna be right here
(Right here right now)

Hey, Iration, Rebelution, Stick Figure
Quite the combination
