

Twisted Up

Iration

It's gone far enough
I thought that I was tough
But I still feel tied down, yeah
I know you lied to me
Call you on the phone and you let it ring
If things ain't adding up
Things ain't adding up

You got me twisted up, twisted up
Don't know what to do now
Twisted up (twisted up)
Never been so twisted up, twisted up
Don't know what is true now
(Twisted up) inside

I'm not going this road
How did you get so cold?
Can't you see I'm hurting?
You took my heart and you tore it out
Played me like fool when I'm out of luck
If things weren't bad enough
If things weren't bad enough

You got me twisted up, twisted up
Don't know what to do now
Twisted up (twisted up)
Never been so twisted up, twisted up
Don't know what is true now
(Twisted up) inside

You got me twisted up, twisted up
Don't know what to do now
Twisted up (twisted up)
Never been so twisted up, twisted up
Don't know what is true now
(Twisted up) inside
