

Uptown

Iration

Ya trying to rock it uptown
But I don't wanna come down
I'm Gonna try to pick it up now
Oh well

Stay a little longer
Stare into the light
Let the sound hold you
Til the end of the night

And if you pour another drink for me
I'll be leaving you behind
One thing you gotta know now
I'm the wandering kind

Feel it getting stronger
Building inside
Wanting it to crash through
Like a wavering tide

And the more you try to blink you'll be
Lost in your mind
Cause if you're tryna rock uptown
I'll be letting you slide
