

# You Were Made For Me

Irene Cara

People say I'm naive  
Wearing my heart on my sleeve  
And it will surely break  
If love should ever leave  
But I don't mind what they say  
I know this love is gonna stay  
'cause in the deepest part of my heart of hearts  
I know that we will always be this way

I know you were made for me  
Nothing can ever change, it's meant to be  
Just like the moon was made for a lonely night  
You are my light  
Forever in this light

I thought I knew love before  
With you I've found there's so much more  
More than the love we make  
It's the feelings we two can explore  
We're just a woman and a man  
We'll make mistakes like we all can.  
But through it all, you'll see  
By your side I will be  
Growing closer to you each passing day.

I've heard it said that love is a crazy game  
You play a little while then the partners change  
Somewhere my heart knows our love has stood the test of time  
You'll be mine
