

Light Upon Light

Irfan Makki

In this world to day
There are many ways
To fall from grace
And go astray
We should realize
That in our lives
We can make a change
For brighter days

Islam is here to guide us all
To light our way and break our fall
Allah is here for you and I
Morning to night
He is light, upon light

Say, ya Allah
My life is yours
My light upon light to the heaven doors
You are the key to paradise
The pleasures and the joys
In the after life

Islam is here to guide us all
To light our way and break our fall
Allah is here for you and I
Morning to night
He is light, upon light
