

Closer to Real

Iris

I'm just making sense, from diving signs
One reality's getting hard to find

Strike my fingers and the answers come
Can't tell if they're real, they alter

Closer to real/ is all you feel

And the radar just keeps returning
It's like crystal vision, but it's hit and miss

Night by night, it's written in my palms
Then when I read, it's all wrong

Closer to real/ is all you feel

I live out where the lakes are dry
I can see for miles in a straight line

Closer to real/ is all you feel
