

Final Fate

Iris

I must go away
From this life of scorn
And you know I'll be
Where the stars are born

[Chorus]
I submit to my final fate
I surrender to follow
Is there life in the milky way?
Will I be here tomorrow?

You feel everything
While the world is numb
But you learn so slow

Should have started young

[Chorus]

My fault
Is there any other way?
Secrets of the long gone creeping in
There's no getting away
At first light I'm already on my way
Deep into the nightfall
I just walk along into the day

[Chorus]
