

Hook

I don't f\*ck with you no more

I'm on my own shit, let that champagne pour

I don't f\*ck with you no more

Whippin' down sunset with the suicide doors

Verse 1

I put my phone on silent

Blame you for all my nightmares

Who recommended you to me

(They better hope that I don't find 'em)

You came with a hundred problems

And expected me to solve 'em

You were your own worst enemy

(You were the worst one)

Pre Chorus

I've been bombarded

By this lovin'

But I realise that it's nothin'

Can't sympathise

You deserve it this way

Oh yeah

Hook

I don't f\*ck with you no more

I'm on my own shit, let that champagne pour

I don't f\*ck with you no more

Whippin' down sunset with the suicide doors

Verse 2

You got me f\*cked up, yeah

I need to stop drinking bout it

I need to start spending thousands  
Push the pedal in my new italians  
Must be out your f\*ckin' mind  
If you think I'm gonna let you back in  
Ain't nothin but a crash landin'  
Wonder how you're still standin'  
I've been bombarded  
By this lovin'  
But I realise that it's nothin'  
Can't sympathise  
You deserve it this way  
Oh yeah  
Hook  
I don't f\*ck with you no more  
I'm on my own shit, let that champagne pour  
I don't f\*ck with you no more  
Whippin' down sunset with the suicide doors  
I don't f\*ck with you no more  
I'm on my own shit, let that champagne pour  
I don't f\*ck with you no more  
Whippin' down sunset with the suicide doors
