Iris

And the situation's over
It don't lie
And it makes you wonder too hard
Who'd be right

Come with me to see one last thing I've got time
And I want to show you something
You might like

I can feel it now
Oh the place I pray to see
Something lost is found
Leaves our souls forever free

Everything we really wanted Enters clear Take a look around Go walking See what's here

Stay inside my dream until our Time wears thin Walk out on this island with me Then turn in

Can you feel it now
Oh the place I pray you see
Something lost is found
Leaves our souls forever free
