

Life in a Forest

Iris

Come at once and
Crawl your way through
You know what to do

Pretend we're lifeless
Drifting in space
To a better place

And this is life in a forest
See if you survive
Screams of life in the darkness
Shrieking through the night

You can't see me
So I'm see-through
Who am I to you

Wilderness life
A deepening chill
With a startled shrill

And this is life in a forest
All is audible
Screams of life in the darkness
Screams you've never known

Well some may know
And some may say they know
Yeah well
They don't

I'll be out where the woods are
Does it mean you won't come?
You'll believe when you see it
Then you'll know
Then you'll know

You can't see me
So I'm see-through
Who am I to you

And this is life in a forest
