

## New Invaders

Iris

below's a fire  
shooting guns, the senses  
mission dire  
circle back, adverse sends

all along, on recess  
just breathing's not enough to exist

long days  
new invaders  
I destroy the enemy  
It's how I now survive  
I go where fate intends  
leave me out for dead  
I'm a wanted life  
who's never getting out alive

new season, sun burns a new day  
starbound heeling  
sending out mayday

no response, forsaken  
dark spaces, no entrance or exits

going live to the scene of pain defiant  
here inside the astral plane,  
I'am at the center of
