

Out of My Mind

Iris

You know how I get
You say it's useless
Victim of alms and lies
It's so continuous
I'm not a wild-eyed guess
To draw good you trace
It's not just a dream
That keeps on leaving me

[Chorus]
Talking like I'm out of my, my mind
Saying things that I almost like
You should have no fear
If I'm talking out of my mind

My soul's enforced regret
My secret loss is not over yet
I don't have a chance
Why even try

You can't listen when
You keep thinking I'm...

[Chorus]
Talking out of my mind
I must seen insane
While delusions pulsate
So stay away
It's the slightest glow
You can't see it though
It is all around you

[Chorus]
Talking out of my mind
Talking out of my mind
Talking out of my mind
Talking out of my mind
Talking out of my mind
Talking out of my mind
