

## Pure White Snow

Iris

Fields dry  
Sun's light burns out  
And the night remains  
Blood moon so soon  
Do you hear my cry in vain?

So hard to know  
Say: "Why it's so?"  
I search so low  
For pure white snow

Signals enter through my ears  
In light commands  
Voices whisper through the years  
With high demands

I throw a stone  
To see where it goes  
And where it falls  
My loss

[Chorus]  
In pure white snow...  
In pure white snow...  
In pure white snow so long  
In pure white snow...  
In pure white snow...  
In pure white snow I belong

[Chorus]
