Red Right Return

Iris

In this mind, yes means false
Dark is light free has cost

I'm harder to follow
Staying out each night
It's down in the marrow
Simulated light

The return isn't right red
This is not what I wanted
I survive on what I can't find
and it's not all just in my head

I reside out in the future
Fearless i'm a lifelong cruiser

I'm living to seek out
Searching on a summer sky
It tells me what's real
What I cease to find

I am made God's way
I am made like you
And I breathe the same
Only you help me to
