

Right Before My Eyes

Iris

Slow agent of change
Defintion insane
Sooner or later it's too late

Don't lead me on
Don't leave me searching for something I can't find
Show me what's right before my eyes

Stuck in the wrong generation
I think we have everything, yet nothing

Don't lead me on
Don't leave me searching for something I can't find

Show me what's right before my eyes
Don't lead me on
You tell me what I need to finally realize
Show me what's right before my eyes

You know I'm implanted
I'm not from this world
Where no hopes are granted
And no dream deserved
